Description

The role

We are looking for a Quality Assurance Intern to join the team and help us Assuring the Quality of our Apps.

You will collaborate closely with a multidisciplinary team to make sure our users have a great and simple experience running their app.

You will conduct manual testing in our apps.

You will work closely with our QA Lead and have the chance to learn QA automation.

You're the right fit for the team if:

You are studying or have just graduated from a coding related degree and/or Bootcamp.
You want to learn to design and implement Integration Tests, UI Tests, Functional Tests and the testing infrastructure for an iOS & Android and Javascript environment.

You have good written and verbal communication skills and you can be an interface between Product Development, Design, Business and Customer.

You speak German and English fluently.

You share our passion for product development and user experience.

You are able to work independently and own a project, but you also love teamwork!
You are pragmatic and work autonomously with a strong positive attitude and overcome challenges with passion.

Company description:

Our partner company is a developer of an app.
